

Compact Exhaust Kit

expella™

All-in-one ventilation kit

TEX6009K

The Expella Compact Exhaust Kit is a universal kit that will suit residential bathroom and laundry ventilation requirements. The kit features Expella's Compact Linear Bar Grille which has a streamlined, minimal appearance. The compact plenum box can also be installed after the ceiling has been sheeted.

Manufacturer:

expella™

Warranty:

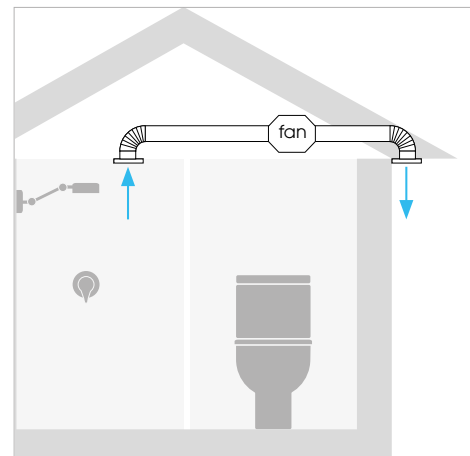

5 years

Benefits:

- Powerful inline exhaust fan up to 530 m³/hr
- 2 speed settings for high and low air flows
- Quiet operation
- Unique linear bar grille and plenum box (for connection to duct work). Can be installed after ceiling has been sheeted
- Easy to install quick clip mounting for both fan and ceiling grille
- 12 meters of quality Australian made ducting
- Removable face plate for easy cleaning and maintenance

Applications and Installation:

- Suitable for domestic single room applications including:
 - Bathrooms exhaust
 - Laundry exhaust
 - General kitchen ventilation systems
- Can be installed by a home handyman or industry professional (electrician or air conditioning installer)
